March 11, 1808—divisions WATCHES. Cheapen in the known South lide of the Old THE PRE EMINENT IMPORTANCE OF PRIMARY SCHOOLS.

The true education regards training rather than information; quality rather than volume; and it is the quality rath-er than the volume of fearning that we should especially regard in the lower schools. They cannot make scholari but they can make students, thickers and readers. Not have much study and how how much to read, but how to study and how to read and what to read, these are the things of greatest impor-tance. The first six years of school life, the golden age of boyhood and girlbood, are ontrusted to the primary school. Four-fifths of the voters, four fifths of fathers and mothers of a generation hence are receiving all the education they will ever have in that school. Ninetenths of the remainder must get the sum of their education in the lower secondary schools. Then these schools assume an importance that cannot be ignored either by the scholar or the patriot; and to their full and systematic development the most careful and honest thought should be given. The pri-mary school in township, village and city is the central element of the system, and leads every other part in Interost and importance, and the lower secondary school, as the distinctive feature of the village and township graded system, is of hardly less importance. Professor H. D. Harrower.

OLD WIT.

One thing is very apparent to one who looks back to remote ages, namely, that wit has always been admired and reproduced. Many of our best lokes are but reproductions of those classic days. The modern spigram, indeed, is often hardly equal to the sharp things which were uttered by Martial. Here s a hit at handrome men, and I may add that I never know one of this class to amount to anything in the way of bus iness Beauty and failure are almost inseperably united, at least in the male sex. For instance, all our great editors have been plain, and even ugly, men. The only handsome member of this profession was Willis, who really was a very small specimen of marliood. Well, here is an epigram from Martial, addressed to one of his Roman acquaintances: "You wish to appear a pretty man and a great man at the same time, but remember that he who is a pretty man is also a very small man "+ New York Correspondence Utica Herald.

A GENTLE HINT.

In our style of climate, with its sudden changes of temperature, -ram, wind and sunships often intermingled in a single day, -it is no wonder that our children. friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause A bottle of Boschec's German Syrup kept about your home for immediate use will pzevent serious siekness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Bevere Coughs, Croup or any disease of the Throat or Lange, its success is simply wonderful, as your druggist will tell you Gorman Byrup to now sold in every inwiand village on this continues. The true education regards training

THE PRE EMINENT IMPORTANCE OF PRIMARY SCHOOLS.

rather than information; quality rather than volume; and it is the quality rath-er than the volume of learning that we should especially regard in the bwey schools. They cannot make scholars, thickers and readers. Not have much study and how how much to read, but how to atudy and how to read and what to read, these are the things of greatest importance. The first six years of school life, are ontrusted to the primary school. Four-fifths of the voters, four fifths of fathers and mothers of a generation hence are receiving all the education they will ever have in that school. Ninetenths of the remainder must get the sum of their education in the lower secondary schools. Then these achools assume an importance that cannot be ignored either by the scholar or the patriot; and to their full and systematic development the most careful and hon-est thought should be given. The pri-mary school in township, village and city is the central element of the sys-tem and leads every other root in house tem, and leads every other part in interost and importance, and the lower secondary school, as the distinctive funture of the village and township graded system, is of hardly less importance. Professor II. D. Harrower.

OLD WIT.

One thing is very apparent to one who looks back to remote ages, namely, that wit has always been admired and reproduced. Many of our best jokes are but reproductions of those classic days. The modern epigram, indeed, is often hardly equal to the sharp things which were uttered by Martial. Here is a hit at handsome men, and I may add that I never know one of this class to amount to anything in the way of hus iness. Beauty and failure are almost inesperably united, at least in the male sex. For instance, all our great editors have been plain, and even ugly, men. The only handsome member of this profession was Willis, who really was a very small specimen of marhood. Well, here is an epigram from Martial, addressed to one of his Roman acquaintances: "You wish to appear a pretty man and a great man at the same time, but remember that he who is a pretty man is also a very small man "+ New York Correspondence Utica Herald.

NOME MORE ECONOMY.

l'The sid saw with reference to the

secondary of "saring at the jupicot and principle at the hunghole" is familiar to everybody, and yet it is receiving fresh. illustrations every day. The escape of the seven Jailbirds on Naturday night furnishes another to the long list of exsamples. The bosse of supervisors, in economy which governs most of itdealings with the county officers, refused to employ a turnbey for the juil, and placed the entire care and responsibility upon the sheriff. That officer, shern of all authority to call to his aid a sufficient number of deputies to trans ant the business of his office--axecut at hin own expense-is loaded down with a multiplicity of labors entirely too great for any one man to perform. He must serve the processes of the circuit and county courts, and execute their mandates; he must travel from one end of the county to the other in order to serve papers, make levies, collect judg ments and agrest persons, he must take convicts to Joliet and lunation to Jackpenrifie, and, in addition to these and all the balance of his duties, have the cure of the prisoners in the county jail. And when, by reason of his necessary absence and the refusal of the board to allow him to employ a competent and trusty uan for jailor, the prisoners band together and escape to again prey upon the community, the county is compellal to offer reward for their capture and ineur expense far in excess of what the would have cost to employ the necessay

help. But this is not all. We are inform ed that the county clerk, for a lack of help in his office, was unable to complete all the last year's tax books in the time allowed, so that the town col lectors did not receive them (in some cases) until a considerable period after the time fixed, and thus lost valuable time. As a consequence, which was aggravated by the hard times, the town collectors were unable to make their usual collections, and the amount of delinquent taxes returned by them to the county treasurer is far in excess of that in former years, and the board-to keep up its reputation for economy -at its last meeting refused to grant the treasurer any allowance for the additional labor imposed upon him by this unexpected increase in the work of his office, which, being much more than several men could do, compelled him several men could do, compelled him and the souncil has nothing to do with to employ a large force and pay them the temperance question. out of his own pocket. This, too, in the face of the fact that the commissions of the town collectors, on the in- Images Republican elector, whether to creased amount of delinquent taxes re- hold the State Convention soon or defer

SOME MORE ECONOMY. iThe eld saw with reference to the

educaday of "sarring as the jugidot and principles as the hunghold" is familiar to everybody, and yet it is receiving fresh, illustrations every day. The escape of the seven failbirds on Saturday night furnishes another to the long list of exgaples. The bosed of supervisors, in the practice of that mistaken theory of economy which governs most of itdealings with the county officers, refused to employ a turnkey for the jail. and placed the entire care and responsibility upon the sheriff. That efficer, shorn of all authority to call to his aid a sufficient number of deputies to trans ant the husiness of his office -axcept at his own expense—is loaded down with a multiplicity of labors entirely too great for any one man to perform. He must county courts, and execute their mandates; he must travel from one end of serve papers, make levies, collect judg ments and arrest persons, he must take senvicts to Jolist and Junaties to Jackpenerifie, and, in addition to these and all the balance of his duties, have the cure of the prisoners in the county jail. And when, by reason of his necessary absence and the refusal of the board to allow him to employ a competent and trusty man for jailor, the prisoners band together and escape to again prey upon the community, the county is compelled to offer reward for their capture and in The money is an integral part of the cur expense far in excess of what would have cost to employ the necessay

But this is not all. We are inform ed that the county clerk, for a lack of help in his office, was unable to complete all the last year's tax books in the time allowed, so that the town collectors did not receive them (in some cases) until a considerable period after the time fixed, and thus lost valuable time. As a consequence, which was aggravated by the hard times, the town collectors were unable to make their usual collections, and the amount of delinquent taxes returned by them to the county treasurer is far in excess of that in former years, and the board-to keep up its reputation for economy -at its last meeting refused to grant the treasurer any allowance for the additional labor imposed upon him by this unexpected increase in the work of his office, which, being much more than several men could do, compelled him to employ a large force and pay them the request has nothing to do with out of his own pocket. SPRINGFIELD, ILL., April 7 .- This evening at the Leland Hotel it was dis-covered that Paul F. Lemke, of Alm. ny, N. Y. aguest who arrived Thursday night, had committed suicide. (In Saturday when a chambermaid rapped at his door he indicated a desire not to be disturbed. This evening the gas in the soom being still barning, the watchman peered above the transem and discovered the bedy lying upon the bed, which had not been disturbed otherwise. Upon entering the room an ingeniously constructed pair of scales was found on which had been weighed the fatal dose of morphia taken. On the hell lay the victim neatly arrayed in an expen-sive black broadcloth suit and new shirt and cuffs. It was evident that he was a gentleman, and the address indicated an aristocratic portion of Albany, N. Y., near the State Florine. A Coroner's jury was impaneled, of which District Attorney Connolly was foreman and Auditor Needles clerk. A verdict of microtic was rendered. Two small visis of morphia were found, and lettters, the first evidently addressed to the writer's affianced, in Albany, inclosing a receipt for a gald watch and locket sent by express, and the second to Mr. Leland, indicating where money to pay board could be sound, and expressing a desire that it be so applied. Both letters extend the sound of the second to Mr. Leland, indicating where money to pay board could be sound, and expressing a desire that it be so applied. MONDAY EVENING, APAIL & MR. = ESCAPE OF SEVEN PRISONERS FROM THE COUNTY JAIL.

A Weak Prison and a Paramonious Board of Supervisors the Cause.

On Saturday night, between 8 and 9 o'clock the people in the neighborhood of the county jail were aroused by pistol shots and loud outcries, and it soon became known that there had been an escape of prisoners from the jail. In a few minutes a large crowd had collected in the neighborhood, and it was ascertained opposed to the mayor in the matter of that seven of the birds had got out. Shermate their plans for escape. An investigation showed that the escape had been made by displacing the flag-stone which formed the ceiling of one of the upper cells, by which means the prisoners gained the loft, and passed from thence to the second floor of the Sheriff's house .-It is thought that five of them jumped from the second story window to the ground, while the other two ran down the stairway and through the front door .-While this was going on Mrs. Forstmyer and the family, and Constable Block, were in the sitting room, and hearing the noise of shuffling fret above, some d them ran out into the hall in time to se the two men who escaped that way. The Sheriff's daughter, Jennie, bravely grahbed one of them, McGinnis, but he jerked loose and was gone in a Jiffy.

The prisoners who escaped were Frank W Brenn-man's house last summer: Clark and John Brown, who were in for rabbing Matthews' store at Niantic, John Hawkins, colored, charged with the robbery of Sweez's shoe store at Macon, and Owen Roney and Wm McGiants, who a charge of stealing heer

The stone which was moved from its olare in the ceiling is a pointerous flag. about 8 feet long, 4 or 5 feet wide, and 6 inches thick. The means used were three iron bars wrenched from the hand ralling of the balcony. With these they shoved the stone westward until it struck the curresponding stone which forms the ceiling of the next cell, (there being a space left between the two sufficient for the purpose), and then the smallest of the party crawled through the opening to the the left, tore out one of the wooden supports of the mof, which he used as a lever from the large audience. to horst the stone, so that the others could

The escape not only shows that it was another we depoint in our miserable apology for a jul. If there had been no space between the ends of the ceiling thags t would have been impossible for the birds to escape in the manner they did No blame can possibly attach to the Sheriff and his family, but if anyhody is an sponsible it is the board of supervisors, who refuse to employ a jailor to stay in the prison all the fine and have the general oversight of the inmates and build ing A vigilant man in that position might have prevented the escape-

1 HE 11 MATHT

Upon the alatm being given and the delivery becoming known, excitement in the city ran bleh, and everybody was on . the lookout for the men. Bherlff Forstmyer and the constables were on the lookout throughout the might, as were also the police force of the city. Marshal Haworth mounted his horse and started for Macon to find the residence of the colored man, Hawkies, supposing that he would probahand and Clipper had been there and had. left the house but a few minutes before Mrs. C. C. McComas, who has spent his arrival, going south. Well satisfied now that he was on the trail, Marshul Haworth continued the search through yesterday, and once got a sight of his men in the brush. The people of the neighborhood turned out to the number of fifty or more and assisted in the scarch, evident that the men were working their way through the timber in the direction of Taylorville.

People in the vicinity say that Hawkins is a sharp fellow, and that he knows every foot-of ground for miles around Yesterday morning Sheriff Forstmyer took the carly train for Springfield and spent the day in that city, but returned

last night without any of his men. Denuty Marshal Brockway and Constable Block went in an easterly direction yesterday, on horseback, taking in Mount Zion, Hervey City, and other points, scour-

ing the intervening country theroughly, and putting the people on theirguard. Constable Weitzel went down the Saint Louis Branch as far as Boody and Blue Mound, but all returned last night, with

out having captured any of the e-caped tail-birds. As to Roney, the officers believe that he is in town and can be captured at any

time. It will not probably be proper to state the opinion of the sheriff as to the direction taken by Bailey, any further than to may that he has but little doubt as to the course he has taken, and that he has plans well laid for his apprehension.

THE POLICE AUDILE.

Two Sets of Officers on Duty.

On Baturday aventing Major Report di-rested Marshal Maworth to northy Shiputy Marshal Brockway and policemen Reibsa men and Leake, that their scryices were no linguer required by the city, and nearly simultaneously with this action, the mayor appointed J. B. Winebrenner Deputy Mambal, and Michael Skelley and Thiver Vest police officers, and these gentletuen were at once sworn in and entered upon the discharge of their halps.

As soon as this action was known to those members of the council who are appointments, the officers named as being lischarged by the mayor were interviewed by them and were directed to continue in the discharge of their duties as deputy marghal and policemen, and that they would be sustained by the contell. Under this advice the old members of the pelice force continued in their places, so that during Saturday night and yesterday the city was protected by a double police

The action of the mayor in the removal of the police officers named created considerable excitement and name talk and was the occasion of considerable merriment throughout the day yesterday.

The police headquarters and all the cit y property are in possession of the council. In addition to the above removals, this afternoon the Mayor appointed D. L. Bunn City Attorney, in place of I. A. Buckingbam, removed. Mr. Bunn was at once sworn in in the City Register's office.

THE TEMPERANCE MOVEMENT. A Full Meeting-Unabated Enthusiasm -New Mignatures to the Pledge.

Another general rally of the triends of temperance took place at the court house last Saturday night. The meeting was presided over by Mr. J. H. Brayton, President of the Reform Club, and the singing was under the direction of D. L. Bunn, were committed only a few days ago on Esq. The exercises were varied somewhat from what they have ordinarily been, by introducing recitations, which constituted a very interesting part of the programme.

Misses Minnie Murphy and Faunie Hollady did themselves much credit and added to the interest of the occasion by their time performances in the way of

Hon. A. B. Bunn, Rev. N. S. Haynes and John B. McDonald were the principal speakers, and their remarks, as usual, were of an interesting character, receiv ing the compliment of hearty applicus

Another new and interesting feature of the meeting on Saturday night was the presence of the Cold Water Army, numa complished by experts, but also reveals bering a hundred or more of boys and girls, who in the course of the evening marchedjinto the room, arrayed in uniform and badges, consisting of sash and ro settes, and with banners, appropriately inscribed. As the young people filed into the court-room they were received with hearty applause. The young people took scats within the bar.

The meeting was among the most inter cetting yet held and showed no abstement of interest in the temperance cause -Another meeting will be held next Satur day nigut.

THE MOST PRECIOUS OF GIFTS.

Health is undeniably a more provious gift than riches, honor or power. Who would exchange it for these, the chief oh fects of human ambition? It is obviously the part of wisdom to employ means for the preservation of health and the prolongation of life which time and experlence have proved to be reliable. Muny of the dangers by which health is threatened may be nullified by the use of the the country. I pun arriving at the house most irresintible of correctives and toules, the marshal said to the woman, "how long Rostetter's Stonach Bitters, which, by since your husband left" Before she increasing vital power and rendering the had time to think, she replied, "about physical functions regular and active, fifteen minutes ago." MONDAY EVENDIG. APRIL & MR. T ESCAPE OF SEVEN PRISONERS FROM THE COUNTY JAIL.

A Weak Prison and a Paramonious Board of Supervisors the Cause.

On Saturday night, between 8 and 9 o'clock, the people in the neighborhood of the county jail were aroused by platel shots and loud outcries, and it soon became known that there had been an escape of prisoners from the jail. In a few minutes a large crowd had collected in that seven of the birds had got out. Sher-The county treasurer's office is a busy iff Forstmyer had gone to Jacksonville mate their plans for escape. An investigation showed that the escape had been made by displacing the flag stone which formed the ceiling of one of the upper calls, by which means the prisoners gained the loft, and passed from thence to the second floor of the Sheriff's house .-It is thought that five of them jumped from the second story window to the ground, while the other two ran down the stairway and through the front door .-While this was going on Mrs. Forstmyer and the family, and Constable Block, were in the sitting room, and hearing the naise of shuffling fret above, some d them rap out into the hall in time to se the two men who escaped that way. The Sheriff's daughter, Jennie, bravely grabhed one of them, McGinnis, but he jerked loose and was gone in a jiffy.

The prisoners who escaped were Frank W Brenn-man's house last summer Clark and John Brown, who were in for robbing Matthews' store at Niantic, John Hawkins colored, charged with the robbery of Swez's shoe store at Macon, and Owen Roney and Wm McGinnis, who a charge of stealing heer

The stone which was moved from its place in the ceiling is a ponderous flag, about 8 feet long, 4 or 5 feet wide, and 6 inches thick. The means used were three iron lars wreached from the hand ralling of the balcony. With these they shoved the stone westward until it struck the curresponding stone which forms the ced ing of the next cell, (there being a space left between the two sufficient for the purpose), and then the smallest of the party crawfed through the opening to the the left, non-out one of the wooden supports of the roof, which he used as a lever from the large audience. to hoist the stone, so that the others could get through

The escape not only shows that it was another weak point in our miserable apology for a jul. If there had been no space between the ends of the ceiling flags twould have been impossible for the birds to escape in the manner they did -No blame can possibly attach to the Sheriff and his family, but if anyhody is se sponsible it is the hourd of supervisors. who refuse to employ a jailor to stay in the prison all the fine and have the general oversight of the inmates and build ing A vigilant man in that position might have prevented the escape-

1 118 11 NATUT Upon the alarm being given and the delivery becoming known, excitement in the city ran birk, and everybody was on . the lookout for the men. Bherlff Forstmyer and the constables were on the lookout throughout the might, as were also the police force of the city. Marshal Haworth mounted his horse and started for Macon to find the residence of the colored man, Hawkles, supposing that he would probaleft the house but a few minutes before Mrs. C. C. McComas, who has spent his arrival, going south. Well satisfied Haworth continued the search through yesterday, and once got a sight of his men in the brush. The people of the neighborhood turned out to the number Ezra Marquias, Esq., of Platt county, of fifty or more and assisted in the sourch, and from all that could be learned it was evident that the men were working their

way through the timber in the direction of Taylorville. People in the vicinity my that Hawkins is a sharp fellow, and that he knows

every foot-of ground for miles around Yesterday morning Sheriff Forstmyer took the early train for Springfield and spent the day in that city, but returned ast night without any of his men. Deputy Marshal Brockway and Consta-

ble Block went in an easterly direction vesterday, on horseback, taking in Mount Zion, Hervey City, and other points, scour ing the intervening country theroughly, and putting the people on theirguard. Constable Weitzel went down the Saint

Louis Branch as far as Boody and Blue Mound, but all returned last night, without having captured any of the escaped jail-birds.

As to Roney, the officers believe that he is in town and can be captured at any time. It will not probably be proper to state

the opinion of the sheriff as to the direction taken by Bailey, any further than to may that he has but little doubt, as to the course he has taken, and that he has plans well laid for his apprehension.

B. Winebrenner Deputy Mambal, and Michael Skeiley and Toliver Vest police officers, and these gentletuen were at once sworn in and entered upon

the discharge of their hales. As soon as this action was known to those members of the council who are the neighborhood, and it was ascertained opposed to the mayor in the matter of appointments, the officers named as being distharged by the mayor were interviewed by them and were directed to continue in the discharge of their duties as deputy marshal and policemen, and that they would be sustained by the council. Under this advice the old members of the pelice force continued in their places, so that during Saturday night and yesterday the city was protected by a double police

The action of the mayor in the removal of the police officers named created considerable excitement and tomb talk, and was the occasion of considerable merriment throughout the day yesterday. The police headquarters and all the cit y

property are in possession of the council. In addition to the above removals, this afternoon the Mayor appointed D. L. Bunn City Attorney, is place of I. A. Buckingham, removed. Mr. Bunn was at once sworn in in the City Register's office.

THE TEMPERANCE MOVEMENT. A Full Meeting—Unabated Enthusiasm —New Signatures to the Piedge.

Another general rally of the triends of temperance took place at the court house last Saturday night. The meeting was presided over by Mr. J. H. Brayton, President of the Reform Club, and the singing was under the direction of D. L. Bunn, were committed only a few days ago on Esq. The exercises were varied somewhat from what they have ordinarily been, by introducing recitations, which constituted a very interesting part of the programme

Misses Mingie Murphy and Famile Hollady did themselves much credit and added to the interest of the occasion by their time performances in the way of

Hon. A. B. Bunn, Rev. N. S. Haynes and John B. McDonald were the principal speakers, and their remarks, as usual, were of an interesting character, receiv ing the compliment of hearty applicus

Another new and interesting feature of the meeting on Saturday night was the presence of the Cold Water Army, numaccomplished by experts, but also reveals bering a hundred or more of boys and girls, who in the course of the evening marchedjinto the room, arrayed in uniform and hadges, consisting of sash and ro settes, and with homers, appropriately inscribed. As the young people filed into the court-room they were received with hearty applause. The young people took scate within the bar.

The meeting was smong the most inter cotting yet held and allowed no abutement of interest in the temperance cause -Another meeting will be held next Satur day night.

THE MOST PRECIOUS OF GIFTS.

Health is undeniably a more provious gift than riches, honor or power. Who would exchange it for these, the chief ob jects of human ambition? It is obviously the part of wisdom to employ means for the preservation of health and the prolangation of life which time and experlence have proved to be reliable. Muny of the dangers by which health is threatened may be nullified by the use of the the country. ESCAPE OF SEVEN PRISONERS FROM THE COUNTY JAIL.

A Weak Prison and a Paramonious Board of Supervisors the Cause.

()n Saturday night, between 8 and 2 o'clock, the people in the neighborhood of the county jail were aroused by platel shots and loud outcries, and it soon became known that there had been an eacape of prisoners from the jail. In a few minutes a large crowd had collected in the neighborhood, and it was ascertained that seven of the birds had got out. Sheriff Porstmyer had gone to Jacksonville with an insane man, and the prisoners took advantage of his absence to consummate their plans for escape. An investigation showed that the escape had been made by displacing the flag-stone which formed the celling of one of the upper cells, by which means the prisoners gained the left, and passed from thence to the second floor of the Sheriff's house .--It is thought that five of them jumped from the second atory window to the ground, while the other two ran down the stairway and through the front door .--While this was going on Mrs. Forstmyey and the family, and Constable Block were in the sitting room, and hearing the noise of shuffling feet above, some d them ran out into the hall in time to set the two men who escaped that way. The Sheriti's daughter, Jennie, bravely grahbed one of them, McGinnia, but he jerked loose and was gone in a jiffy.

The prisoners who escaped were Frank Clipper, the burglar who went through D W Brenneman's house last summer: Frank Bailey, the confidence man, C Clark and John Brown, who were in for cobbing Matthews' store at Niantic, John Hawkins colored, charged with the robhery of Switz's shor store at Macon, and Owen Roney and Wm McGinnis, who were committed only a few days ago on a charge of stealing beet

The stone which was moved from its place in the ceiling is a ponderous flag, about 8 feet long, kor 5 feet wide, and \$ inches thick. The means used were three iron bars wrenched from the hand railing of the balcony. With these they shoved the stone westward until it struck the corresponding stone which forms the cert ing of the next cell, (there being a space left between the two sufficient for the purposel, and then the smallest of the party or cyled through the opening to the the loft tore out one of the wooden supto head the stone, so that the others could

The escape not only shows that it was accomplished by experts, but also reveals another west point in our miserable apologs for a jail If there had been no space between the ends of the ceiling flags it would have been impossible for the birds to escape in the meaner they did. -No blame can possibly attach to the Sher affand his family, but if anybody is in sponsible it is the board of supervisors, who refuse to employ a juilor to stay in the prison all the time and have the general oversight of the minutes and build ing A vigilant man in that position

might have prevented the escape. THE PURPORT I pon the alarm being given and the delivery becoming known, excitement in the city ran blob, and everybody was on the lookout for the men. Sheriff Forstmyer and the constables were on the lookout throughout the night, as were also the police force of the city Marshal Haworth mounted his horse and started for Macon to find the residence of the colored man, Hawkies, supposing that he would probathe marshal said to the woman, "how long Haworth continued the search through yesterday, and once got a sight of his men in the brush. The people of the neighborhood turned out to the number of fifty or more and assisted in the sourch, evident that the men were working their way through the timber in the direction of Taylorville.

Prople in the valuity say that Hawkins p a sharp fellow, and that he knows every foet-of ground for miles around. Yesterday morning Sheriff Forstmyer

took the early train for Springfield and

spent the day in that city, but returned last night without any of his men. Deputy Marshal Brockwar and Constable Block went in an easterly direction Zion, Hervey City, and other paints, scour ing the intervening occurry theroughly,

and putting the people on theirguard. Constable Weitzel west down the Beint Louis Branch as fur as Boody and Blue Mound, but all returned last night, without having captured any of the escaped

iail-birds. As to Roney, the officers believe that he is in town and can be explained at any

the opinion of the sheriff as to the direction taken by Balley, any further than to say that he has but little doubt as to the course he has taken, and that he has pleas

well laid for his apprehension. The Old Bemisten Buck-Choves and Mitte, the best and cheapest in America,

THE POLICE MUPILE.

Two Sets of Officers on Duty.

On Saturday avening Mayor Reput di-rected Marchal Maworth to notify Deputy Marshal Brockway and policemen Reibsamen and Leake, that their services were no longer required by the city, and nearly simultaneously with this action, the mayor appointed J. B. Winebrenner Deputy Manhal, and Michael Skelley and Thiver Vest police efficers, and these gentlemen were at once sworn in and entered upon

the discharge of their dulies. As soon as this action was known to those members of the council who are opposed to the mayor in the matter of appointments, the officers named as being discharged by the mayor were mierriewed by them and were directed to continue in the discharge of their duties as deputy marshal and policemen, and that they would be sustained by the countil. Under this advice the old members of the pelice force continued in their places, so that during Saturday night and yesterday the city was protected by a double police

The action of the mayor in the removal of the police officers named created considerable excitement and bomb light, and was the occasion of considerable merriment throughout the day yesterday. The police headquarters and all the cit y

property are in possession of the council. In addition to the above removals, this afternoon the Mayor appointed D. L. Bunn City Attorney, in place of I A. Bucking ham, removed. Mr. Bunn was at once sworn in in the City Register's office

THE TEMPERANCE MOVEMENT. a Pull Meeting Unabated Enthusianm New Signatures to the Pledge.

Another general rally of the triends of lemperance took place at the court house last Saturday night. The meeting was presided over by Mr. J. H. Brayton, President of the Reform Club, and the singing was under the direction of D. L. Bunn, Esq. The exercises were varied somewhat from what they have ordinarily been, by introducing recitations, which constituted a very interesting part of the programine*

Misses Minute Murphy and Famile Hollady did themselves much credit and added to the interest of the occasion by their fine performances in the way of recitations

Hon. A B Bunn, Rev. N S. Haynes and John B. McDonald were the principal speakers, and their remarks, as usual, were of an interesting character, receiv ing the compliment of hearty applause from the large audiesce. Another new and interesting feature of

the meeting on Saturday night was the presence of the Cold Water Army, num bering a hundred or more of boys and girls, who in the course of the evening marched into the room, arrayed in uniform and badges, consisting of sash and ro settes, and with banners, appropriately macribed. As the young people filed into hearty applause. The young people took seats within the bur.

The meeting was among the most inter-ceting yet held and showed no abatement of interest in the temperance cause .--Another meeting will be held next Saturday night

THE MOST PRECIOUS OF CIFTS.

Health is undeniably a more precious gift than riches, honor or power. Who would exchange it for these, the chief objects of human ambition? It is obviously the part of wisdom to employ means for the preservation of health and the prolongation of life which time and experience have proved to be reliable. Many of the dangers by which health is threatused may be nullified by the use of the most irresistible of correctives and tonics, Hostetter's Stomach Bitters, which, by since your husband left?" MONDAY EVENING, APAIL & 1841. 2 ESCAPE OF SEVEN PRISONERS FROM THE COUNTY JAIL.

> A Weak Prison and a Paramonious Board of Supervisors the Cause.

On Saturday night, between 8 and 9.

o'clock, the people in the neighborhood of the county jail were aroused by pistol shots and loud outcries, and it soon became known that there had been an excape of prisoners from the jail. In a few minutes a large crowd had collected in the neighborhood, and it was ascertained that seven of the birds had got out. Sheriff Foreimyer had gone to Jacksonville with an insane man, and the prisoners took advantage of his absence to consummate their plans for escape. An investigution showed that the escape had been made by displacing the fing-stone which formed the celling of one of the upper cells, by which means the prisoners gained the left, and passed from thence to the second floor of the Sheriff's house .-It is thought that five of them jumped from the second story window to the ground, while the other two ran down the stairway and through the front door .-While this was going on Mrs. Forstmyer and the family, and Constable Block were in the sitting room, and hearing the noise of shuffling feet above, some d them ran out into the hall in time to set tity Attorney, in place of 1 A. Bucking the two men who escaped that way. The Sheriti's daughter, Jennie, bravely grabbed one of them, McGinnia, but he jerked loose and was gone in a jiffy.

The prisoners who escaped were Frank Clipper, the burglar who went through D. W Brenneman's house last summer; Frank Bailey, the confidence man, C Clark and John Brown, who were in for robbling Matthews' store at Niantic, John Hawkins, colored, charged with the robhery of Switz's shoe store at Macon, and Owen Roney and Win McGinnis, who were committed only a few days ago ona charge of stealing beer

The stone which was moved from its place in the ceiling is a ponderous flag, about 8 feet long, 1 or 5 feet wide, and 6 mehrs thick. The means used were three iron bars wienched from the band railing of the balcony. With these they shoved the stone westward until it struck the corresponding stone which forms the ceil ing of the next cell, (there being a space left between the two sufficient for the purposed, and then the smallest of the party or swled through the opening to the was brought before Justices Peake and the last tore out one of the wooden sup-Curtis with a view to obtaining had. He ports of the noof which he used as a lever offered as surfies his mother, L. R. Cam to horst the stone, so that the others could

The escape not only shows that it was accomplished by experts, but also reveals: another west point in our miserable apology for a jud II there had been no space between the ends of the ceiling flags twould have been impossible for the hirds to escape in the manuer they did. -No blame can possibly attach to the Sher off and his family, but if anybody is in sponsible it is the board of supervisors, who refuse to employ a juilor to stay in the prison all the time and have the gen eral oversight of the minutes and build ing A vigilant non in that position might have prevented the escape.

I pon the alarm being given and the the city ran bleb, and everybody was on the lookout for the men. Sheriff Forstout throughout the night, as were also the mounted his horse and started for Macon to find the residence of the colored man, Hawkies, supposing that he would probathe marshal said to the woman, "how long since your husband left." Before she Haworth continued the search through yesterday, and once got a sight of his men in the brush. The people of the prighborhood turned out to the number of fifty or more and assisted in the sourch. and from all that could be learned it was evident that the men were working their was through the timber in the direction of Taylorville.

Prople in the variety say that Hawkins is a sharp fellow, and that he knows every foot-of ground for miles around. Yesterday morning Sheriff Forstmye. took the early train for Springfield and apent the day in that city, but returned last night without any of his men.

Deputy Marshal Brockway and Consta ble Block went in an anterly direction yesterday, on horseback, taking in Mount Zion, Hervey City, and other points, scour ing the intervening country thoroughly and putting the people on theirguard. Constable Weitzel west down the Beint

Louis Branch as far as Boody and Blue Mound, but all returned last night, without having raptured any of the escaped

THE POLICE MUDILE.

Two Sets of Officers on Duty On Baturday aveilig Hayer Rayet di-

regiot! Marshal Haworth to notify Beputy Marshal Brockway and policemen Reibsamen and Leake, that their services were no langer required by the city, and nearly simultaneously with this action, the meyor appointed J. B. Winebrenner Deputy Manhal, and Michael Skelley and Thiver Vest police efficers, and these gentlemen were at once sworn in and entered upon the discharge of their duties. As soon as this action was known to

those members of the council who are opposed to the mayor in the matter of appointments, the officers named as being distharged by the mayer were interviewed by them and were directed to continue in the discharge of their duties as deputy marshal and policemen, and that they would be sustained by the council. Under this advice the old members of the police force continued in their places, so that during Saturday night and yesterday the city was protected by a double police force The action of the mayor in the remova

of the police officers named created considerable excitement and some talk, and was the occasion of considerable merriment throughout the day yesterday. The police headquarters and all the cit y

property are in possession of the council. In addition to the above removals, this afternoon the Mayor appointed D. L. Bunn ham, removed. Mr. Bunn was at once sworn in in the City Register's office

THE TEMPERANCE MOVEMENT. Full Meeting—Unabated Enthusiasm
—New Signatures to the Pledge.

Another general raily of the triends of temperance took place at the court house hast Saturday night. The meeting was presided over by Mr. J. H. Brayton, President of the Reform Club, and the singing was under the direction of D. L. Bunn, Feq. The exercises were varied somewhat from what they have ordinarily been, by introducing recitations, which constituted a very interesting part of the

Misses Minaie Murphy and Family Hotlady did themselves much credit and added to the interest of the occasion by their fine performances in the way of recitations

Hon. A B Bunn, Rev. N S. Haynes and John H. McDonald were the principal speakers, and their remarks, as usual, were of an interesting character, receive ing the compliment of hearty applause from the large audience. Another new and interesting feature of

the meeting on Saturday night was the presence of the Cold Water Army, num bering a hundred or more of boys and girls, who in the course of the evening marched into the room, arrayed in uniform and badges, consisting of sash and ro settes, and with banners, appropriately inscribed. As the young people filed into the court-room they were received with hearty applause. The young people took seats within the bar.

The meeting was among the most interseing yet held and showed no abutement of interest in the temperance cause .--Another meeting will be held next Saturday night

THE MOST PRECIOUS OF CIFTS.

Health is undeniably a more precious gift than riches, honor or power. Who would exchange it for these, the chief objects of human ambition? It is obviously the part of wisdom to employ means for police force of the city Marshal Haworth the preservation of health and the prolongation of life which time and experience have proved to be reliable. Many of the dangers by which health is threatof the dangers by which health is threatnued may be nullified by the use of the
